On April 30<sup>th</sup> 2024, the Department of Electronics and communication Engineering (SoE) organized a guest talk with one of its alumni. The event titled "*Unveiling the world of Wireless Sensor Network - A Journey through Connectivity & Innovation*" The session was led by the esteemed alumna Dr. Trupti Tagare, the event aimed to enlighten the student community with evolutionary milestones technology has undergone in achieving the state-of-the-art in this area. The talk also focussed upon the relative pros and cons of various epochs in developments and delineates the future areas of research in wireless sensor network design paradigm.
