### Tea Kadai

Created using Adobe Animate CC and live-action footage, with backgrounds designed in Photoshop. Most scenes are live-action, with minimal animation to enhance realism and emotion. This short film follows the journey of a successful man returning to his childhood village. A visit to a familiar tea shop triggers memories of past struggles and traumas, bringing to light the challenges that once shaped him—and the determination that fueled his success.

"Chikoo" is a touching story from the Pradeep's Diary series, originally written in 2018. It follows the life of Anusha, a woman battling dementia, who begins to hallucinate and imagines a bird she lovingly names Chikoo.

The narrative gently explores the emotional struggles of her husband, Pradeep, as he tries to cope with her condition. Through this intimate journey, the story delves into themes of love, memory, loss, and resilience.

# JEWELUXE – The Gold Cleaning and Polishing Machine

This project presents a smart, sustainable solution for ornament maintenance by combining ultrasonic cleaning and felt-wheel polishing in one compact device. It gently removes dirt using cavitation bubbles and polishes jewelry with soft felt wheels, preserving intricate details.

A key innovation is the built-in gold dust collection tray, which minimizes material loss and enhances economic value. Designed with user safety and convenience in mind, the machine is ideal for both household and commercial use in the jewelry industry.

## Thermal Boots

This project features the design of advanced thermal boots with an inbuilt rechargeable heating system, tailored for treks in extreme cold and high-altitude environments. Equipped with insulated waterproof materials, heating coils, and a microcontroller-based temperature regulator, the boots provide adjustable warmth powered by a lightweight lithium battery.

An ergonomic sole and breathable lining enhance durability and comfort for prolonged wear. Developed by a team of product designers and engineers, the boots address key cold-weather challenges faced by outdoor explorers.

# Smart Stock – Grocery Management Application

This all-in-one app streamlines grocery management while promoting healthy eating habits. Users can scan or manually add groceries, track expiry dates, and monitor stock levels. The integrated Health Hub provides insights on consumption trends and estimated nutrient intake.

Smart Tags like “Low Sugar” or “High Iron” help identify healthier options easily. Personalized suggestions and health alerts support balanced nutrition. An AI chatbot offers assistance with grocery queries, meal ideas, and wellness tips. For added convenience, users can consult certified nutritionists and automate grocery orders from local vendors.
