## Workshop

### Pixels to Frames Photography Workshop

On 11th December 2025, the Department of School of Design and Digital Transmedia at Dayananda Sagar University conducted an enriching Photography Workshop for design students. The session was facilitated by Dr. Bhavana S, Assistant Professor, CHRIST University, who shared her expertise in photography, visual storytelling, and thematic representation.

The session witnessed enthusiastic involvement from students, who actively captured photographs and experimented with various lighting and framing techniques. Participants worked on theme-based compositions and received constructive feedback to refine their visual approach.

## Graphic Design Workshop

A Graphic Design Workshop was organized on 20th November 2025 at Dayananda Sagar University for the B.Design students. The session was facilitated by Mr. Subhajit Das, a professional designer and educator with expertise in visual communication, Project manager from Ely Lilly. The workshop aimed to introduce students to contemporary design practices and enhance their creative thinking and software-based design skills and the use of AI.

Students actively participated in the tasks, shared their concepts, and worked in teams to develop quick design outputs. The workshop created a highly interactive environment where students were encouraged to ask questions, experiment with layouts, and express originality through visuals.

# Form Exploration

The Coffee Blender features a sleek, modern design with smooth contours and minimal detailing, giving it a refined and contemporary look. Its compact form and well-balanced proportions enhance both aesthetics and functionality, making it a perfect fit for any kitchen space. Crafted with premium finishes, it brings elegance and sophistication to everyday coffee making. The streamlined silhouette ensures a clean, clutter-free presence on the countertop, while ergonomic design elements make it comfortable and intuitive to use. Built with durable materials, it offers long-lasting performance and a polished appearance. Its thoughtfully engineered construction blends form and function seamlessly, ultimately elevating the brewing experience with style, precision, and ease.

# Student Spotlight: Product Commercials in Unreal Engine

**5th Sem**  
**Animation and Gaming**

Our students recently created product commercial visuals using Unreal Engine, focusing on lighting, materials, and cinematic presentation. The showcased renders of gaming chairs demonstrate their ability to set up studio lighting, build realistic materials, and create clean, professional product shots suitable for advertising. These projects highlight their growing skills in look development and real-time rendering, reflecting industry-ready creativity and technical understanding. We're proud of their progress and excited to share more of their work soon.
