Summary:

The meeting started on time, using blended mode. Dr. M. Shahina Parveen, Professor and Chairperson of the Department of Computer Science and Technology, initiated the meeting by welcoming members of the BOS and the Department Curriculum Committee. Dr. M. Shahina Parveen briefed all attendees on the department's accomplishments and meeting agenda followed by discussion on each agenda points with respective CST curriculum documents which are enclosed in prior to all the BOS members.

Discussion on Agenda:

Agenda	Discussion Brief
1	Discussion on BTech CST (2022-26 batch scheme and syllabus) 7th and 8th semester. The curriculum was reviewed and found satisfactory, with no corrections required.
2	Discussion on BTech CST (2023-27 batch) scheme and syllabus 5th to 8th semester. Mr. Neerav Joshipura suggested to add Fintech course as elective in the curriculum.
3	Discussion on BTech CST (2024-28 batch) scheme and syllabus 3rd to 8th semester. Suggested to add certification courses like Azure and AWS should be included.
4	Discussion on BTech CST (2025-29 batch) 1st to 8th semester scheme and syllabus. Mr. N. C. Sriraman suggested additional elective verticals for the upcoming batch for consideration. These will include areas such as Artificial Intelligence, Industrial IoT, medical domain products, and financial domain solutions such as digital wallets and microfinance software development.
	Department Vision, Mission, PEOs, PSOs. (Inclined with institutional vision, mission). The vision, mission and PEOs of the department are framed, taking into consideration the suggestions, feedback and inputs from different stakeholders. The Vision and Mission, PEOs and PSOs are reviewed and refined. The process that was followed in recent revision is as follows: 1. Initial discussion was conducted among the faculty members and student representatives to draft the Vision and Mission statements of the department in the presence of Chairperson keeping the Vision and Mission of the institute in the mind. A brainstorming session was conducted and this was followed up by a discussion session to come up with a draft version of the Vision and Mission of the department. 2. This draft was shared with the different stakeholders and their comments and suggestions were collected. The stakeholders include parents, current students, alumni, industry professionals, employers, academicians from other reputed institutions. The comments and suggestions received are consolidated, analyzed by chairperson and are discussed in the faculty meetings and changes, if felt necessary, are incorporated in the Vision and Mission statements. The Vision and Mission statements are reviewed with the department advisory board, DAB, PAC and approved by the management

6	Implementation of NEP 2020 & suggestions. Presented about the curriculum design by using NEP 2020, SEP and UGC guidelines.
7	Courses on Employability, Entrepreneurship, Skill development, Percentage of new courses introduced and Mooc Courses for credit transfer. Presented on the newly introduced courses, various domain specific courses related to Employability, Entrepreneurship, Skill development and Mooc courses for credit transfer.
8	Minor Degree & Honours degree CST. B. Tech students from non-CST department can get Minor in CST that runs in parallel to the BTech degree. It allows a student to get basic competencies in computer science & technology thus expanding their horizons for a career that requires multidisciplinary skills. To obtain a Minor degree, the student should earn 18 additional credits after successfully completing 3rd sem to 8th semester. A student will receive BTech with Minor degree on successful completion of BTech courses offered in Computer Science & Technology. To obtain B. Tech CST Honours Degree, an additional 18 credits are required which demonstrates ability of Self Learning and/or research/ Entrepreneurship. The self-learning component can be completed through SWAYAM /NPTEL /any other approved MOOC (massive open online course) platform. The courses should be selected from the list of courses approved by the CST department. The research/ entrepreneurship component involves credits obtained by doing research in premier institutes such as IITs/IISc or at DSU. A student has to undertake these courses from III to VIII semester over and above the normal prescribed courses comprising of 160 credits. Students will receive B. Tech with Honours degree on successful completion of these courses. Minor degree and Honours degree courses were deliberated to the expert members. Committee members were pleased with the degree options available to students and suggested that advanced courses to be included in the Honours degree.
9	List of programs clearly indicating course, credit/elective in the CBCS program structure. Presented all course, credit/elective in the CBCS program structure to all the members.
10	Any other matter of academic concerns. R programming course can be included in the data analytics domain. Students should be allowed to use AI and Gen AI to create the projects.

Overall discussion, suggestions and concluding remarks:

- Lab credits should be increased.
- Dual career path opportunities should be shown to students w.r.t the courses they take.
- Reviewed the number of credits semester wise for each course.
