Ms. Sadila Bhutia, M.Sc (N) is a dedicated academician and nursing educator specializing in Community Health Nursing. She is actively involved in teaching undergraduate nursing students and guiding them in understanding community-based health care, preventive services, and population-focused nursing practice.

Her academic background includes a **B.Sc. Nursing** followed by an **M.Sc. Nursing in Community Health Nursing**, with strong expertise in maternal and child health services, national health programs, epidemiology, and community-based nursing interventions. She has hands-on experience in conducting community surveys, family health assessments, school health programs, and health education activities in rural and urban settings.

Conference papers:

1. “Cardiovascular Disability and the Effect of Cardiac Rehabilitation on Functional Outcomes” — Poster presented at the *International Conference on Translational and Technological Advances in Health Sciences*, organized by Dayananda Sagar University.
