ABOUT COLLEGE OF PHYSIOTHERAPY

Physiotherapy is a branch of modern medical science which involves examination, assessment, interpretation, physical diagnosis, planning and execution of treatment and advice to individuals. It aims at preventing, correcting, alleviating and limiting dysfunction, acute and chronic bodily malfunction including life saving measures. At DSU, we make this possible by integrating learning outcome-based framework into the curriculum.

College of physiotherapy was established in 2007 under Rajiv Gandhi University of Health Science. It was included in the ambit of Dyananda sagar University in the year 2015-2016. The college offers Bachelors of Physiotherapy BPT program with 60 intake, Masters of physiotherapy MPT under 5 specialties with 10 intake, PhD was incepted as a new program in 2021-2022.

The degree is awarded based on demonstration and achievement of outcomes in terms of knowledge, skills, attitudes and values and academic standards expected of the professional. We, at the College of Physiotherapy, DSU are working with a vision to be a centre of excellence in Physiotherapy education, clinical training, research and innovation and to produce professionals with exceptional skills and leadership qualities to serve humanity with compassionate care. At the College of physiotherapy, DSU, we focus on 'quality', 'innovation', 'teamwork' 'service' 'integrity' and 'compassion'.

Emerging graduate and post graduate students are required to demonstrate a substantial knowledge base, possess skills related to physiotherapy practices. Apart from the program learning outcome, at DSU, the student would be able to demonstrate academic excellence, perseverance and motivation, professional temperament, entrepreneurial skills and social competencies on completion of the program that prepare the student for employment, higher education, and research thereby developing students as contributing members for the overall benefit to the society.
