PARENT TEACHER MEETING 2025

The College of Physiotherapy, School of Health Sciences, Dayananda Sagar University, conducted a successful Parents Teachers Meeting on 12th April 2025 with the aim of fostering better communication and collaboration between faculty members and the parents/guardians of students. The event saw active participation from parents attending the session to discuss and review the academic progress and overall development of their children.

Parents were informed about evaluation methods, including internal assessments, practical exams, and attendance policies. Faculties emphasized the importance of regular attendance and hands-on training for skill development. Individual sessions allowed parents to discuss their child's strengths and areas for improvement. Class coordinators provided a comprehensive performance analysis highlighting academic achievements, attendance, clinical skills, and extracurricular participation as well as the role of parental involvement in supporting students during their transition into professional education. Outstanding students were commended, and areas needing improvement were addressed. Parents were encouraged to motivate their wards to actively participate in seminars, workshops, and internships.

The meeting concluded on a positive note, with parents expressing their gratitude to the faculty for their dedication and commitment to the students' development. The session not only strengthened the bond between parents and faculty but also reinforced the university's commitment to nurturing skilled and competent physiotherapy professionals. An open forum was conducted where parents shared their feedback and posed questions regarding academic support, hostel facilities, placement opportunities, and mental health resources. Faculty members assured them of ongoing support and encouraged two-way communication. Parents appreciated the transparency and expressed satisfaction with the college's efforts toward student development. The Parent-Teacher Meeting was a successful initiative that helped build a stronger relationship between the institution and families. It reiterated the shared responsibility of nurturing and guiding students toward their professional goals.
