

PARENT TEACHERS MEETING

REPORT

The concept of PTM or parent teacher meeting is a very old concept that the schools use to keep the parents updated about their child's academic and overall performance. It is crucial that along with teachers, parents should also be involved in their child's learning process. BPT III and IV year Parents Teacher Meeting was organized on 04/07/2023. Principal Dr. SATHYA GURUPRSAD, Dr. SHRIHARI SHARMA and Dr. VINOD gave the introductory remark for the parents and a brief video clip describing the instruction, classes held, CDSIMER infrastructure, tools, and Practical Lab was demonstrated. The purpose of the gathering was to talk to the parents about the students (wards) performance involving their Internal assessment marks and the attendance. Additionally, their parents were given input on their performance, health, and academics. The Parents Teacher Meeting was conducted in the PG Seminar Hall on 04/07/2023 for 3rd and 4th year BPT students at the respective timings. The Parents Teacher Meeting concluded that parents and teachers must collaborate and work together to ensure that students make progress.
