3.3. Shared Sports Facilities

Dayananda Sagar University shares its sports facilities with the local community and general public, providing opportunities for regular physical activity, recreation and sports participation. The facilities include football, cricket, basketball, volleyball and other outdoor sporting facilities that can be utilized by community members and the public.
This shared access encourages people of different age groups to participate in sports, maintain physical fitness and develop an active lifestyle.
The initiative strengthens university–community engagement and contributes to improved health, well-being and social interaction through inclusive sporting opportunities.
