

## PARENT FEEDBACK ON CURRICULUM

Your responses for this survey will be used as a feedback in designing the curriculum (list of courses under a programme of study) and the syllabi (course contents for each course or subject), Please rate each question on a scale of 4 to 1: 4 - Excellent, 3 - Good, 2 - Average, and 1 - Poor.

Name: *Ramdas T.K*Programme Department: **CSE(Data Science)**

1. Curriculum, with respect to addressing emerging national and global trends, is  
 4                       3                       2                       1
2. Coverage of advanced and inter-disciplinary topics in curriculum is:  
 4                       3                       2                       1
3. How are the curricula and syllabi in relation to the real life applications?  
 4                       3                       2                       1
4. Enhancement of innovation and critical thinking skills through curriculum is:  
 4                       3                       2                       1
5. Scope for acquiring employability and entrepreneurship skills through curriculum is:  
 4                       3                       2                       1
6. Imparting of human values and ethics through the curriculum is:  
 4                       3                       2                       1
7. The system followed by DSU for the design and development of curriculum is:  
 4                       3                       2                       1

Department of CSE(Data Science)

8. How do you rate the course design in terms of course contents and realization of course outcomes

- 4                       3                       2                       1

9. How do you rate the academic flexibility provided for delivery of course contents in the academic frame-work?

- 4                       3                       2                       1

10. How do you rate the course contents from the perspective of coverage for competitive exams?

- 4                       3                       2                       1
