MINUTES OF MEETING

Details of the Meeting:

Date: 23.03.24

Time: 10AM-11AM

Venue: Principal office

Agenda and Resolutions

1. **Discussion on the Allocation of Faculty Mentors for Students Previously Assigned to Dr. Humair, Dr. Radhika, and Dr. Bhaswathi**
   Discussion: The reassignment of students mentored by Dr. Humair, Dr. Radhika, and Dr. Bhaswathi was discussed due to the need to reallocate students to other available faculty mentors. Faculty members considered the distribution of students per mentor, current faculty availability, and the specific needs of each student's academic level (1st to 4th Year BPT).
   Resolution: Each student previously mentored by Dr. Humair, Dr. Radhika, and Dr. Bhaswathi was reassigned to new faculty mentors Dr.Sidddhesh, Dr.Jagruthi and Dr. Vimarsha. The distribution was done to ensure each mentor has a manageable number of mentees and to maintain a balanced ratio across all year levels. The updated mentor-mentee list will be distributed to the students, informing them of their new mentors.

Conclusion

The meeting concluded with the following action points:

- Finalize and circulate the updated mentor-mentee list to all affected students.
- Ensure new mentors introduce themselves to their assigned mentees through initial orientation sessions.
- Plan a follow-up meeting to review the effectiveness of the new allocations and address any arising issues.

MINUTES OF MEETING

Details of the Meeting:

Date: 23.12.23

Time: 10AM-11AM

Venue: Principal office

Agenda and Resolutions

1. **Discussion on the Allocation of Faculty Mentors for Students Previously Assigned to Dr. Aparna Jha, Dr. Sahith, and Dr. Sucheta**
   Discussion: The faculty discussed the reassignment of students who were previously mentored by Dr. Aparna Jha, Dr. Sahith, and Dr. Sucheta. Due to changes in faculty availability, it was necessary to reallocate these students to other mentors for effective guidance and support throughout the academic year. Factors considered included the number of students per faculty, current workloads, and the needs of each academic year group (1st to 4th Year BPT).
   Resolution: Each student previously mentored by Dr. Aparna Jha, Dr. Sahith, and Dr. Sucheta was successfully reassigned to available mentors in the department. The reallocation was done with careful consideration to maintain balanced mentor-mentee ratios. Updated lists will be shared with the students, ensuring they are aware of their new mentors and the guidance structure for the academic year.

Conclusion

The reallocation of mentors was completed as per the revised list, and the following action points were agreed upon:

- Finalize and distribute the updated mentor-mentee list to the students.
- Each new mentor will schedule introductory sessions with their reassigned mentees.
- Review the mentorship distribution in a follow-up meeting to ensure a smooth transition.

2.3.3.1 Number of mentors

The department has implemented a robust mentor-mentee system to provide students with academic, personal, and professional guidance. Faculty members are assigned as mentors to students, ensuring individual attention and support throughout their academic journey. This system fosters a nurturing environment where students can address challenges and seek advice.

Mentor-mentee allocations are systematically documented and managed through the ERP system. These documents, which include mentee lists and meeting records, are regularly updated to ensure transparency and accessibility. Mentors conduct periodic meetings with their mentees to monitor progress, provide support, and address any concerns.

The mentor-mentee relationship plays a vital role in creating a supportive academic atmosphere and contributes to the holistic development of students. The department actively maintains and updates this system to ensure its effectiveness in meeting the needs of all students.

2.3.3.1 Number of Mentors in the Department

(Mechanical Engineering)

The Mechanical Engineering Department places significant emphasis on the holistic development of students. As part of the institutional commitment to nurturing academic, personal, and professional growth, a structured mentoring system has been established for the 2nd, 3rd, and 4th-year students of the department. The mentoring system aims to provide students with continuous guidance and support throughout their academic journey. The mentors are responsible for fostering both academic excellence and personal development by offering advice, career counselling, and addressing student concerns. The system also enhances student engagement, encourages problem-solving, and facilitates skill-building activities.

Mentor-Student Ratio and Number of Mentors

In alignment with the best practices, each mentor is assigned a specific group of students, ensuring that the mentor-student ratio is manageable, thereby enabling personalized attention. The number of mentors allocated for the 2nd, 3rd, and 4th-year Mechanical Engineering students at Dayananda Sagar University is as follows:

2nd Year Students: 02 mentors for 21students

3rd Year Students: 02 mentors for 31 students

4th Year Students: 02 mentors for 44 students

This structured approach ensures that each student receives adequate support and guidance from their mentors.

Role of Mentors

Mentors play an integral role in the academic and personal development of students by:

Academic Guidance: Helping students manage their academic workload, addressing course-related challenges, and providing assistance with research projects or assignments.

Career Counselling: Providing insights into potential career paths, industry trends, and guiding students in securing internships or jobs. Mentors also assist with resume building and interview preparation.

Personal and Emotional Support: Serving as a source of emotional support, mentors help students navigate challenges related to stress, time management, and maintaining a balanced academic life.

Skill Development: Encouraging participation in co-curricular and extra-curricular activities that aid in developing leadership, teamwork, and other soft skills critical for success in the mechanical engineering field.

Mentoring Activities

The mentoring system is dynamic and involves various activities throughout the academic year, including:

Regular one-on-one mentoring sessions to discuss academic performance and personal progress.

Workshops on industry trends, career growth, and soft-skill development.

Special sessions to address challenges faced by students during their internships or research projects.
