STRATEGIC LEADERSHIP IN THE AI ERA

Program Overview

Strategic Leadership in the AI Era is an executive program designed to help leaders understand and leverage AI for smarter decision-making, communication, and business transformation. Through practical concepts, frameworks, and real-world use cases, participants will learn how AI is reshaping leadership, strategy, culture, and risk management in modern organizations.

Key takeaways for participants:

- Develop a practical understanding of AI, Machine Learning, Deep Learning, Generative AI, and Agentic AI.
- Learn how AI can enhance leadership, decision-making, communication, and problem-solving.
- Understand the leadership challenges and trade-offs of AI-driven transformation.
- Explore Responsible AI, governance, ethics, and risk management frameworks.
- Gain real-world insights and use cases to become a future-ready AI leader.

Faculty Resource

- Prof. Amit Sinha - Professor of Practice (AI)
- Prof. Mohan Srinivasan - Prof. of Practice (Digital Transformation)
