

THE SUPERSCIENCE

Expo

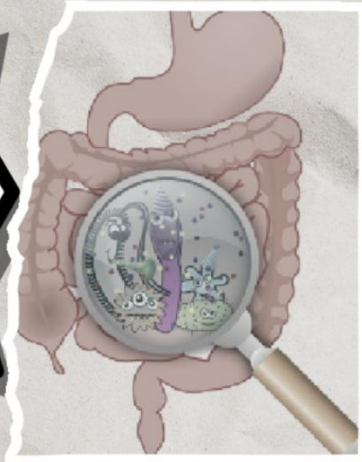

THE HELIX OF HEROES

Superpowers may not be here yet, but genetic engineering, synthetic biology, and molecular enhancement are starting to blur the line. This session drags superhero fiction through real biology to reveal how science could one day push human limits.

THE GREAT INDIAN GUT FEST

'Eat healthy' is a myth!
Your gut microbes are creatures of habit—so feed them right. Discover how your DNA, your diet, and your microbial super-army work together. Eat what your genes crave. Eat gut-good — at the Great Indian Gut Fest!

WHEN?
26TH NOV,
2025

President,
Dr. SUNIL S MORE
DEAN, SBAS, DSU

Organizers
GENETICSCLUB, DSU
